

PROGRAM—Stop Throwing Out Pollutants!

PROTECTING OUR ENVIRONMENT

By bringing the listed residential hazardous materials to the Multi-Purpose Recycling Facility, your household can make a significant contribution to the protection of our precious groundwater supply and the preservation of the Great South Bay. Long Island depends on an underground aquifer system; improper disposal of these items can work its way down into the drinking water supply and contaminate the local waterways. Please join with us in promoting the environmental conservation of the Islip community. Together we can ensure the continued integrity of our ecosystem.

HOW TO PARTICIPATE

- Complete and bring the attached form along with proof of residency. Waste from commercial establishments will not be accepted.
- Each container should be individually placed in a clear plastic bag and sealed. Adding absorbent material is recommended.
- For safe transport, pack sealed containers with newspapers and place in a secure box. Exercise extra caution for leaking containers.
- Bring products in the original labeled container only.
- Quantities will be limited to five gallons or ten pounds and three empty propane tanks per household.
